Declaration of Compliance – REACH 1907/2006/EC

To whom it may concern:

We declare under our sole responsibility that all products supplied to our customers are in conformity with regulation 2006/1907/EC of the European Parliament and of the Council of 18 December 2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

The declaration is based on information provided by our suppliers, published data and the documentation in 2006/1907/EC. No attempt has been made to verify this information by third party analysis. All information in this declaration is given to the best of our present knowledge and belief. The information given doesn't imply giving any warranty within the meaning of the warranty law.

Under the structure of the REACH Regulation, ESPROS Photonics AG is a manufacturer and supplier of "products" to our EU customers . We do not manufacture or supply "substances" or "preparations" and our articles do not involve the "intentional release of substances". Accordingly, we foresee no registration or pre-registration requirement for the products we supply.

ESPROS Photonics AG believes that even though REACH is an EU regulation, the ESPROS products are affected in all geographical regions. Therefore, ESPROS Photonics AG has put together a global team to implement REACH on a worldwide basis.

ESPROS Photonics AG is constantly monitoring the substances of very high concern (SVHC), as defined by REACH, in our products. This will be an on-going process since the complete list of SVHC will be released in stages.

The customers are encouraged to visit the following site to get the most up to date information on current list of SVHC under REACH: https://echa.europa.eu/candidate-list-table

ESPROS Photonics AG products do not contain Substances of Very High Concern (SVHC) above the threshold value.
